PE

1. Mobility Exercises
2. Free Play - 10 ball game-10 passes
This game has two teams. Each team will have 10 members. To start with, the team has to pass the ball between its team members. Each pass will be counted as one and members have to pass the ball for 10 counts. Each pass of the ball should be to different team members. 10 passes without a foul will get one point. Likewise whichever team has the maximum points at the end of the game will be the winner. If a pass is missed by any team member, the game starts again. The opposite team has to try and stop the team from winning.

Tiger game- One student will play a role of a Tiger and others will be the team players. The Tiger will move forward and the members have to follow in a line. Each time they ask the tiger a question, they say -“Tiger, Tiger, what's the time?” The tiger answers randomly - 7, 8 or 10, etc. However, if the Tiger says 12 - then everyone has to run. If the Tiger catches anyone, they will be out. The Tiger can be changed during the game.
